### DETAILED ACTION

1. Claims 1-24 have been examined.

#### *Claim Rejections - 35 USC § 103*

2. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

3. Claims 1-24 are rejected under 35 USC 103(a) as unpatentable over Lebda(US Pat. No: 6,611,816) in view of Norris(US Pat. No: 5,870,721).
4. As per claims 1-24 Lebda teaches a network for coordinating a loan over the internet (Abstract)(Figs 1-12)(col 1 line 55-col 2 line 30) providing background information on the applicant(Fig 1/1)filtering(Fig 1/6), obtaining a score and applying it to the database derived from applicant's information(Fig 1/5) as well as mutual acceptance/denial by the borrower and lender(Fig 1/8/9).Lebda further teaches use of a social security number(Fig 3B) and verification of a phone number and e-mail address(Fig 3B/18/19) as well as application of the credit score to an application(Fig 5/26). Lebda further teaches reading all the lending institution's criteria for extending credit(Fig 8/38) and searching various lenders(Fig 8/56) as well as approving or denying an application(Fig 10/71) as well as the applicant's response(Fig 11) and closure(Fig 12).Norris teaches use of a neural network to eliminate human biases(Abstract)(col 3 lines 8-20)

Art Unit: 3624

and which also includes underwriting and funds transfer(col 2 lines 7-16).Norris also teaches utilization of a credit bureau(Fig1/16) in the evaluation process as well as a lending institution(Fig 1/26) and a deposit instituion(Fig 1/28). It would have been obvious to one skilled in the art at the time of the invention to combine Lebda in view of Norris to teach the disclosure. The motivation to combine is to teach a real time method for processing a loan application that reduces errors and eliminates biases as enunciated by Norris(col 3 lines 8-20).

***Conclusion***
